Day surgery procedure

You are scheduled to have a procedure at the day surgery unit. You can find the date and time of your procedure in the invitation letter.

Welcome to the unit that provides good service!

Do not eat before coming to the hospital
Do not eat or drink anything for 6 hours before you come to the hospital. Take any morning medications you use on a regular basis with water.

However, do not take oral glucose medication in tablet form. If you are on anticoagulants (blood thinners), please read the invitation letter for more detailed instructions.

Be sure to follow carefully the instructions on not eating. If not, the procedure may have to be cancelled.

Other preparation
There are some forms attached to this letter. Fill them out carefully and bring them with you to the hospital.

Wash yourself carefully and remove nail polish. Do not wear makeup. Remove all jewellery and piercings. Check your skin in the area of the procedure to make sure it is healthy.

Bring with you any medications you need to take during the day, such as asthma medications, insulins or oral glucose medicines in tablet form.

In the hospital
You will be interviewed by a nurse prior to the procedure. You will also meet the operating surgeon.

Be prepared that you may have to wait some time before the procedure.

After the procedure, you will be monitored in the day surgery unit. You will be given a light snack when you are feeling well enough to eat.

Discharge from the hospital
You will be discharged on the same day when you are feeling well enough. The time of discharge depends on the medicines you have been given and the procedure performed. The day surgery unit closes at 6 p.m.

You will need an adult to stay with you at home because of the anaesthesia (general or local) used during the procedure. If you do not have anyone available to stay with you, please call 02 627 3835.

Your family and friends may enquire when you will be discharged at 02 627 3848.

Important!
You are not allowed to drive a car until the following morning so you must have someone pick you up. You may also use a Kela taxi to take you home.

Over!
Charges
A day surgery procedure costs €123.90/visit. You will receive an invoice by post after the procedure.

Reimbursement for travel expenses
As a rule, Kela reimburses expenses for the least expensive means of transportation, usually train or bus. If the traffic connections are poor, please contact Kela in advance to agree on the reimbursement.

Once you are discharged after the procedure, you can use a Kela taxi if you do not have anyone who can pick you up. The transportation will be arranged by a nurse. The deductible is €25.

For more information about reimbursement of travel expenses, go to www.satasairaala.fi → Potilaille → Hoitoon tulo → Matkakustannukset (in Finnish)

Give feedback
We are committed to doing our best to make your visit as smooth as possible. Please tell us how we are doing. It helps us improve the care we provide for our patients. Thank you for your feedback.

Find us on the web
To see our day surgery website, go to www.satasairaala.fi → Toimipaikat → Satasairaala, osastot ja poliklinikat → Day surgery (in Finnish).
